

Belts for the Paper Industry

Knowing your production process

Specialist in your industry

Within the paper & print industry, Ammeraal Beltech has been setting the standard for many years with a consistent high product quality and market-specific features. Innovations over the years have resulted in a number of new concepts.

Ammeraal Beltech offers a widest range of belting solutions for:

- › box and carton folding;
- › print and post printing;
- › corrugated board industry;
- › personal care & tissue;
- › paper production and sheeting;
- › tube winding.

Specific requirements

- › Accurate feed and long service life – Ultrafeed 500
- › High speed folding/glueing – RAPPLON® High Performance Folder Gluer Belts
- › Combination of straight, curved and inclined conveyors – uni Modular Belts
- › Seamless Belts for easy and quick installation – ZipLink®
- › Specific additional covers, perforations, etc. – Engineered Belts
- › Quick, easy and straight joining – RAPPLON® QuickSplice tools
- › Optimal covers for horizontal and non-horizontal transport – Process and Conveyor Belts
- › Accurate paper processing – RAPPLON® machine tapes
- › Positive drive belts for perfect synchronisation – Ultrasync Belts
- › Precise, heavy tube winding – Endless Woven AmTube Belts

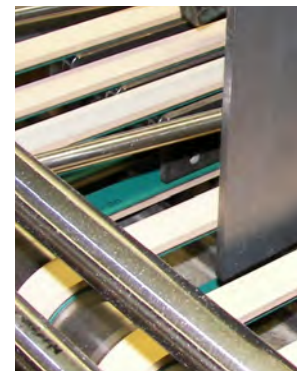

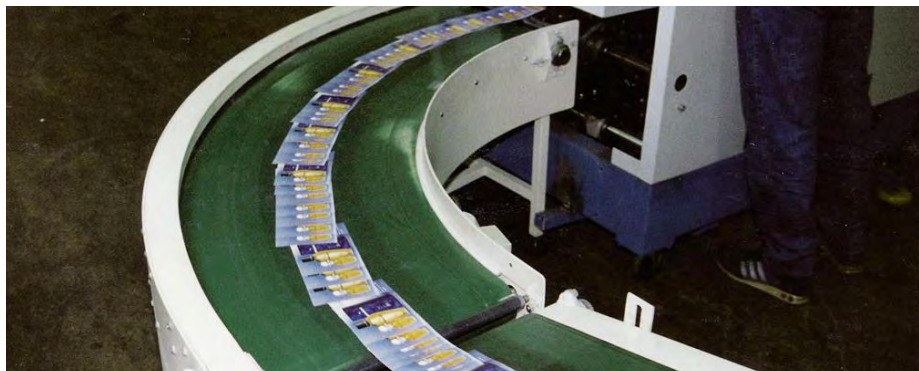

Meeting your requirements with RAPPLON® Belts High Performance Folder Gluer Belts

- Setting the latest standards in the industry
- Highest Energy Saving potential
- Highest dimensional and edge stability
- Bi-directional running, easy tracking
- Wear resistant covers, maintaining their friction
- QuickSplice concept

Meeting all your belting needs ...

Ammeraal Beltech understands the importance of keeping your business running

Ammeraal Beltech is a leading manufacturer of process and conveyor belting with a long reputation for developing innovative solutions for belting applications.

One Stop Belt Shop

Ammeraal Beltech is a global belting company and a true "One Stop Belt Shop", able to provide the best belting solutions, components and services for processing and conveying of goods in the widest range of applications. Control of the full value chain (development, manufacturing, fabrication, sales, distribution and service) and close co-operation with our customers, suppliers and other partners contribute to our success.

The RAPPLON® QuickSplice toolkit is easy to use, achieving minimal downtime and significant costs savings

QuickSplice - easy maintenance

The QuickSplice technique allows reliable fitting of belts within a few minutes. This reduces machine down-time with consequent overall maintenance cost savings. Working closely with OEMs and end users, Ammeraal Beltech has developed a QuickSplice concept. Either hot splice with our RAPPLON® QuickSplice toolkit or with a range of ZipLink® Belts; a special design link fabric in combination with top covers giving superior performance. The main benefit is the striking increase of your production time.

Energy Saving

Energy Saving

Belt selection is a very important factor in saving energy, but not the only one. Three main factors influence power demand: motor efficiency, machine design and belt selection. Ammeraal Beltech therefore developed the 'Energy Saving Concept'.

Ammeraal Beltech for all your belting needs

... with regular and specialised belts

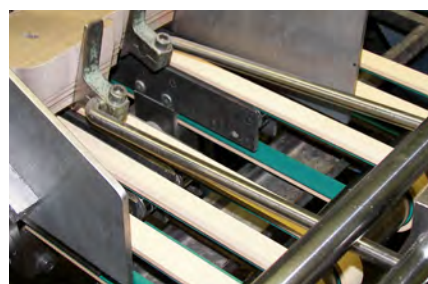

RAPPLON® Folder Gluer Belts

- energy saving design
- highest dimensional stability
- bi-directional running

RAPPLON® Machine Tapes

- highly wear-resistant coatings
- accurate and precise handling
- dimensional stability

Feed Belts

- firm and reliable feeding of blanks
- seamless and wear-resistant covers
- improved productivity and yield

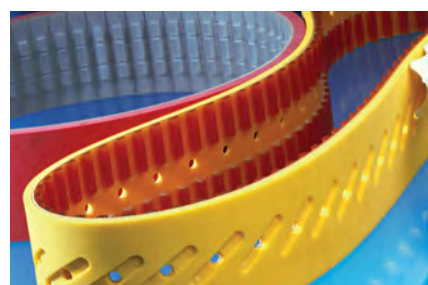

Tubewinder Belts

- new AmTube belts
- new RAPPLON® Belts

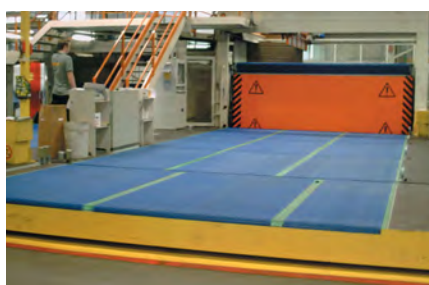

Process and Conveyor Belts

- widest choice available
- easy tracking and fitting

Engineered Belts

- innovative, tailor made solutions
- wide range of carrier belts

uni Modular Belts

- reliable, positive driven
- easy to replace and repair

ZipLink® Belts

- quick and easy splicing
- easy to replace and repair

RAPPLON® QuickSplice Toolkit

- easy to use on-site
- considerable cost savings

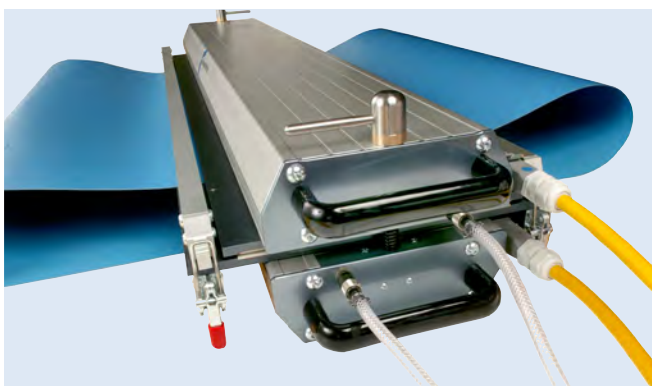

Just-in-time delivery

Ammeraal Beltech is one of the world's leaders in process and conveyor belting with a worldwide distribution and service network in more than 150 countries.

Ammeraal Beltech understands the importance of keeping your business running and knows how costly and disruptive downtime is.

A solid combination of geographical coverage, market segment knowledge and product management is the foundation of an innovative and service-oriented organisation.

Excellent service, advice and fabrication

- Ammeraal Beltech has developed a wide range of belting and accessories to assist and improve processes to secure a seamless operation.
- Skilled personnel are on call to install and service belts using high speed modern equipment.
- Most orders can be dispatched directly from stock.
