

UltraFit Two-Part Sprocket System – to reduce your maintenance costs

UltraFit Two-Part Sprocket System with interchangeable adapters

The most unique and revolutionary feature in the uni UltraFit Two-Part Sprockets is the built-in adapters. The adapters make it possible to install the uni UltraFit Two-Part sprocket on different shaft sizes.

The wide adapters serving as spacers automatically guarantee perfect distance between the sprockets, ensuring ideal alignment of sprockets across the belt width.

Adapters are available for popular bore sizes and in two widths: 25.0 mm (0.98 in) and 76.0 mm (2.99 in).

UltraFit Two-Part Sprocket System: sprocket and adapter

Unique benefit

Time-saving and cost-cutting innovation

Sprockets are crucial components in belt systems, and replacing them can cause downtime. At Ammeraal Beltech, our drive to create innovative solutions, that reduce maintenance costs and downtime, has led to the development of the UltraFit Two-Part Sprocket System with interchangeable adapters.

The uni UltraFit Two-Part Sprockets are available in a wide range of tooth numbers and popular Metric and Imperial bore sizes to fit most existing systems.

Ammeraal Beltech Modular Belts using the new sprocket include:

- uni JCB
- uni QNB

Innovative solution
 – keeps downtime to a minimum

Traditional Sprockets

Difficulties when replacing traditional sprockets include:

- Complicated replacement procedures leading to long downtime.
- The lifting / removal of heavy components requires the help of additional persons.
- A lack of working space in which to carry out the various steps of this operation.

NEW uni UltraFit Two-Part Sprockets

Advantages when using the UltraFit System:

- Quick and simple installation / replacement of sprockets.
- Easy re-alignment of the belt and better subsequent performance, thanks to adapters.
- A one-person job, without heavy lifting.

All this adds up to:

- **Outstanding performance**
- **Reliability**
- **Efficiency**

Easier & faster
maintenance

Less
downtime

Reduced
costs

Reduces maintenance costs
 and total cost of ownership
